Online Survey using Qualtrics

EPSY 5383

Class Notes

Accessing Qualtrics and Creating Project

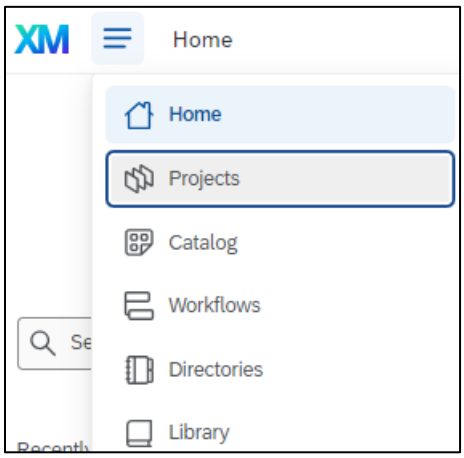
Goal: Access Qualtrics, create a new project, and assign the project into a new or existing folder.

ACCESS QUALTRICS

1. Go to http://www.qualtrics.com.
2. Click **LOGIN**, enter your login credentials, and click **Sign In**.

CREATE FOLDER

3. From the main menu, select **Projects**.



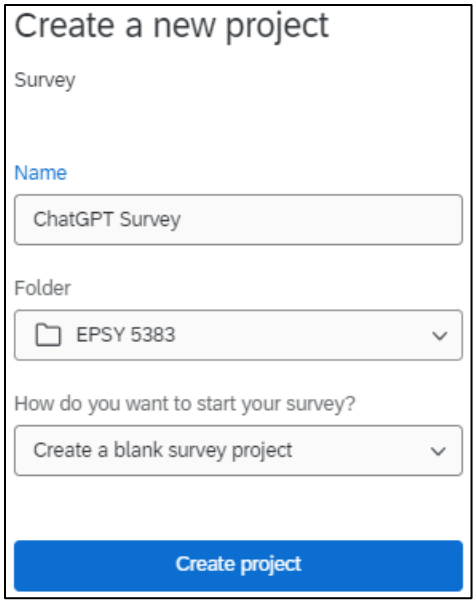
4. Click **Create new folder** at the bottom left corner of the page >> Type "EPSY 5383" into the folder name box. This new folder will be added under the **Projects and Programs** folder.

5. Alternatively,

   Move the mouse pointer onto the **Projects and Programs** folder located in the **Your folders** panel >> Click the menu button (•••) to show the menu >> Select **Create subfolder** >> Type "EPSY 5383" into the folder name box.

CREATE PROJECT (SURVEY)

6. From the main menu, select **Projects**.
7. Click **Create project** at the top right corner of the page >> Select **Survey** >> Click **Get started**.
8. Type "ChatGPT Survey" into the Name box, select "EPSY 5383" from the **Folder** drop-down menu, and select **Create a blank survey project** >> Click **Create project**.



9. In the **Projects** page, find “EPSY 5383” in the left folder panel and “ChatGPT Survey” in the right project panel.

Note. In the **Projects** page, you can:

- Create, delete, and rename folders.
- ‘Drag and drop’ projects from folder to folder.
- Manage projects.

End of Demonstration

Creating Questions and Question Blocks

Goal: Create questions and question blocks in different ways.

OPEN PROJECT

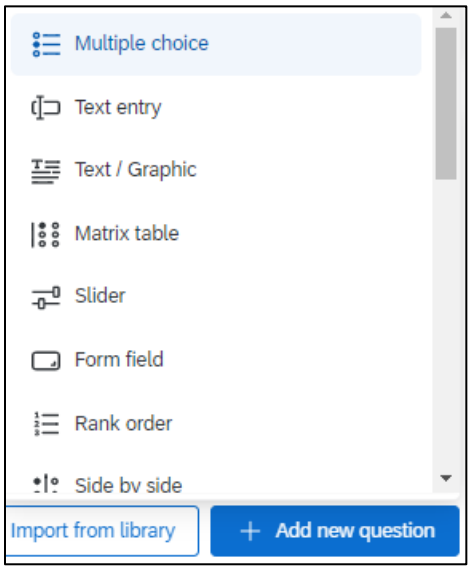
1. From the **Projects** page, select the “ChatGPT Survey” project.

ADD BLOCK

2. The first question block will be used for participant greeting and consent. To name this block, move the mouse pointer onto the Default Question Block field, click once, and type “Intro & Consent”. We will work on this block later.
3. Click **Add Block** >> Rename “Block 1” to “Current Use”.

ADD QUESTION (MULTIPLE CHOICE)

4. Within the “Current Use” block, click **Add new question** >> Select **Multiple choice**.

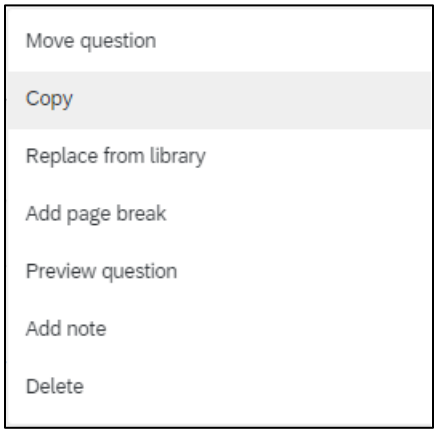


5. Move the mouse pointer onto the “Click to write the question text” field, click once, and type “How often do you use ChatGPT as part of your workday?”.
6. Adjust the **Number of choices** by using the +/– buttons under the **Choices** menu in the left **Edit question** panel >> Move to the question and type “Every day”, “Occasionally”, “Rarely”, and “Never” into the four response choice fields.

COPY QUESTION

7. Create a new block “Use Policy” (refer #3).
8. Within this block, create a new question “Q3” (refer #5-6).

9. Move the mouse pointer onto the menu button (•••) in the “Q3” question >> Click once to show the menu >> Select **Copy**.



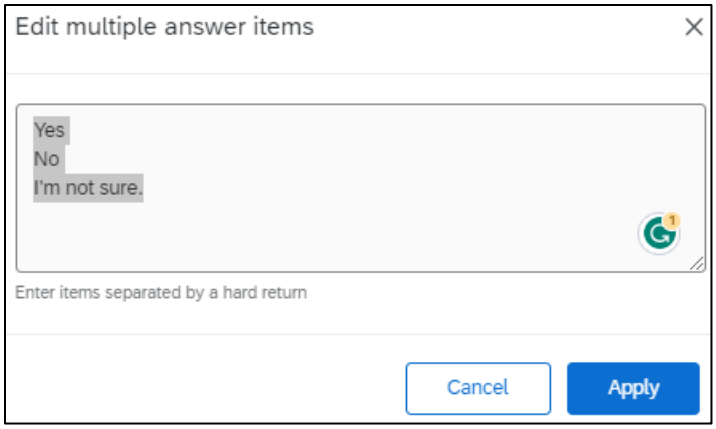
10. Update the text of the new, copied “Q4” question.

ADD QUESTION (MATRIX TABLE)

11. Create a new block “Value & Trust” (refer #3).
12. Within this block, click **Add new question** >> Select **Matrix table**.
13. Type “For each statement, indicate your level of agreement.” into the question text field.
14. Adjust the **Number of statements** by using the +/– buttons under the **Statements** menu in the **Edit question** panel.
15. Move to the matrix table and write the statements on the Statement 1 to 3 fields.
16. Adjust the **Number of scale points** by using the +/– buttons under the **Scale points**.
17. Move to the matrix table and type “Strongly agree”, “Somewhat agree”, “Neither agree nor disagree”, “Somewhat disagree”, and “Strongly disagree” into the Scale Point 1 to 5 fields.

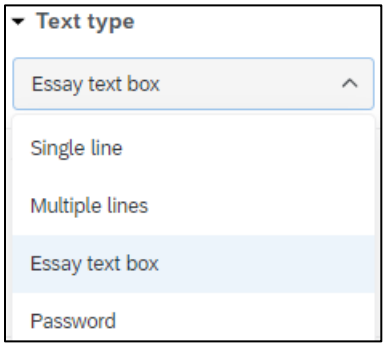
COPY REPONSE CHOICES

18. Create a new block “Intent to Use” (refer #3).
19. Within this block, create a new question “Q6” (refer #5).
20. Copy response choices from a previous question:
    a. Click the “Q2” question >> Click **Edit multiple** under the **Choices** menu in the **Edit question** panel, drag and select the 3 response choices, copy (Ctrl + c), and click either **Cancel** or **Apply**.
    b. Click the “Q6” question >> Click **Edit multiple**, paste (Ctrl + v), and click **Apply**.



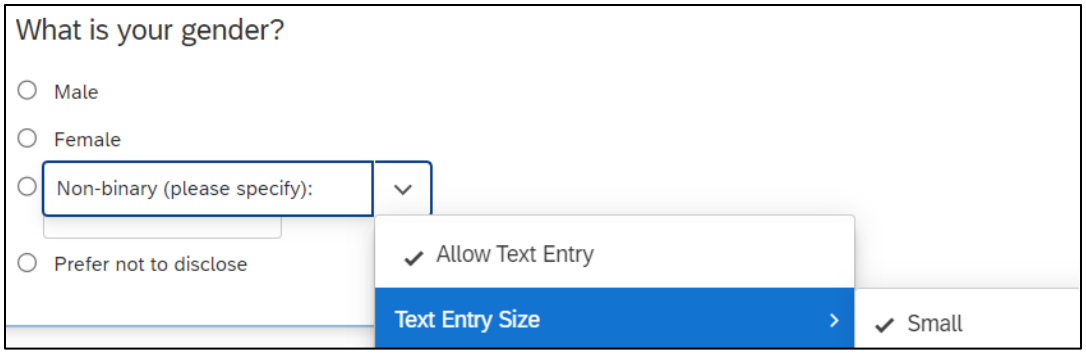
ADD QUESTION (TEXT ENTRY)

21. Within the "Intent to Use" block, click **Add new question** >> Select **Text entry**.
22. Type "Please list some advantages and/or disadvantages you have experienced while working with ChatGPT" into the question text field.
23. From the **Text type** menu in the **Edit question** panel, select **Essay text box** >> Adjust the (pixel) size of the open-text box by using the mouse ('hold and drag').



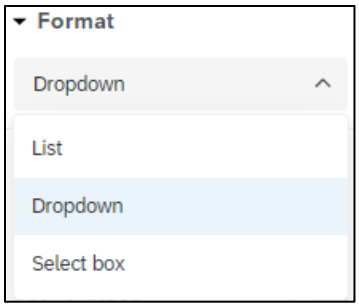
ADD QUESTION (ALLOW TEXT ENTRY)

24. Create a new block "Demographics" (refer #3).
25. Within this block, click **Add new question** >> Select **Multiple choice**.
26. Write question text "What is your gender?" and response choices "Male", "Female", "Non-binary (please specify):", and "Prefer not to disclose".
27. From the drop-down menu for the "Non-binary (please specify)" choice, select **Allow Text Entry**.
28. Visit the drop-down menu again >> **Text Entry Size** >> Choose the size of the open-text box.
29. Visit the drop-down menu again >> **Text Entry Validation** >> Choose the validation options if desired.

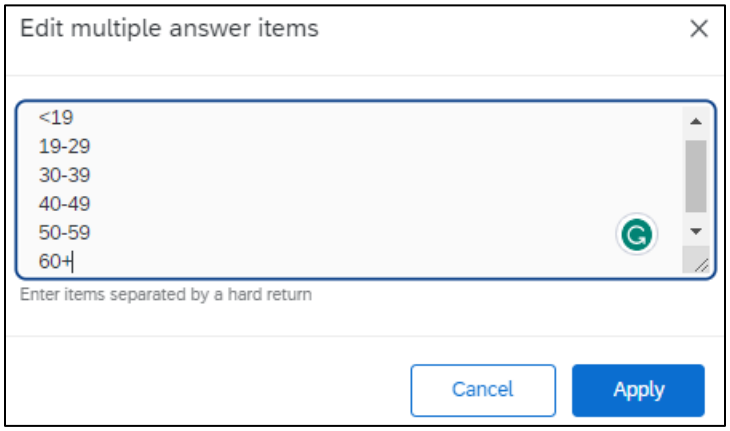


ADD QUESTION (DROPDOWN)

30. Within the “Demographics” block, click **Add new question** >> Select **Multiple choice**.
31. Write question text “What is your age?”.
32. From the **Format** menu in the **Edit question** panel, select **Dropdown**.

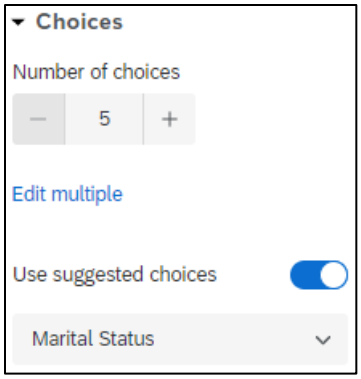


33. Click **Edit multiple** under the **Choices** menu >> Write response choices on the Edit multiple answer items box as shown below >> Click **Apply**.



ADD QUESTION (SUGGESTED CHOICES)

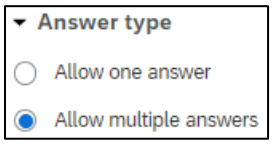
34. Within the “Demographics” block, click **Add new question** >> Select **Multiple choice**.
35. Write question text “What is your marital status?”.
36. Under the **Choices** menu in the **Edit question** panel, toggle ‘on’ the **Use suggested choices** option >> Select **Marital Status** from the drop-down menu.



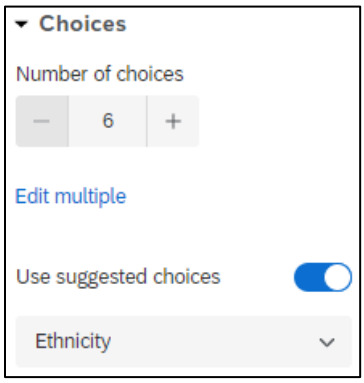
37. Add one more response choice (refer #6) >> Type "Prefer not to disclose" for the added choice.

ADD QUESTION (MULTIPLE ANSWERS)

38. Within the "Demographics" block, click **Add new question** >> Select **Multiple choice**.
39. Write question text "What is your ethnicity? (choose all that apply)".
40. From the **Answer type** menu in the **Edit question** panel, select **Allow multiple answers**.



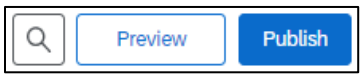
41. Under the **Choices** menu, toggle 'on' the **Use suggested choices** option >> Select **Ethnicity** from the drop-down menu.



42. Add one more response choice (refer #6) >> Type "Prefer not to disclose" for the added choice.
43. Write question text "What is your race?" and response choices "Hispanic/Latino", "Non-Hispanic/Latino", and "Prefer not to disclose".

RUN PREVIEW

44. Click **Preview** at the top right corner of the page >> Toggle 'on' the **Mobile view** option >> While taking the survey, check if the questions and question blocks appear as expected.



End of Demonstration

Practice

1. Explore different options of the **Question type** and sub-menus.

End of Practice

Setting Other Question Options

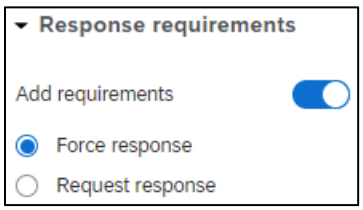
Goal: Impose response requirements and skip logic on the questions.

OPEN PROJECT

1. From the **Projects** page, select the “ChatGPT Survey” project.

ADD RESPONSE REQUIREMENT

2. Click the “Q2” question >> Under the **Response requirements** menu in the **Edit question** panel, toggle ‘on’ the **Add requirements** option >> Select **Force response**.



ADD DISPLAY LOGIC

3. The “Q6” question regarding intention of future use should be delivered to only those participants who have not used ChatGPT before (who answered “Never” to the “Q2” question). To add this skip logic:
    a. Within the “Q6” question, ‘right’ click to show a drop-down menu >> Select **Add Display Logic**.

    b. Choose the field values as shown below (“Is Selected”) >> Click **Confirm**.

c. The **Display this question** icon should now appear on the “Q6” question.

4. Similarly, the “Q7” question regarding use experience should be delivered to only those participants who have used ChatGPT before (who did <u>not answer “Never”</u> to the “Q2” question). To add this skip logic:

   a. Within the “Q7” question, ‘right’ click to show a drop-down menu >> Select **Add Display Logic**.

   b. Choose the field values as shown below (“Is Not Selected”) >> Click **Confirm**.

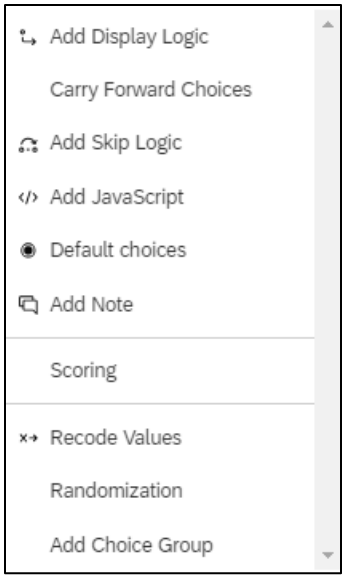
   c. The **Display this question** icon should now appear on the “Q7” question.

ADD SKIP LOGIC

5. The ‘martial status’ question should be skipped if survey participants are younger than 18 years. To add this skip logic:

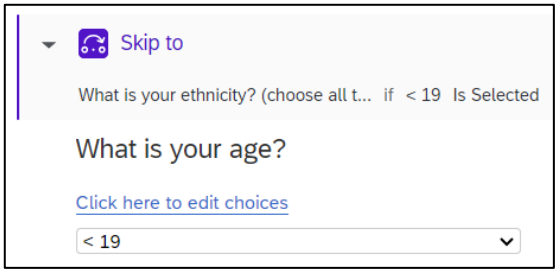
   a. Apply **Force response** to the ‘age’ question (refer #2).

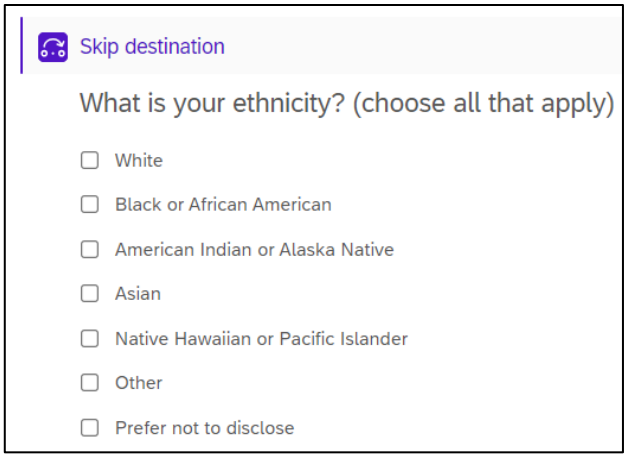
   b. Within the ‘age’ question, ‘right’ click to show a drop-down menu >> Select **Add Skip Logic**.



c. Choose the field values as shown below (“< 19”) >> Click **Confirm**.

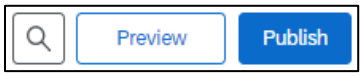
d. The **Skip to** and **Skip destination** icons should now appear on the ‘age’ and ‘ethnicity’ questions, respectively.





RUN PREVIEW

6. Click **Preview** at top of the page >> Check if the response requirement and skip logic work properly as designed.



End of Demonstration

Practice

1. Explore the differences between **Force response** vs. **Request response** of the **Add requirements** option.
2. Apply the **Add validation** option in the **Response requirements** menu.

End of Practice

Creating Consent Page and Setting Survey Flow

Goal: Create an intro/greeting page, add a consent question, and update the survey flow.

OPEN PROJECT

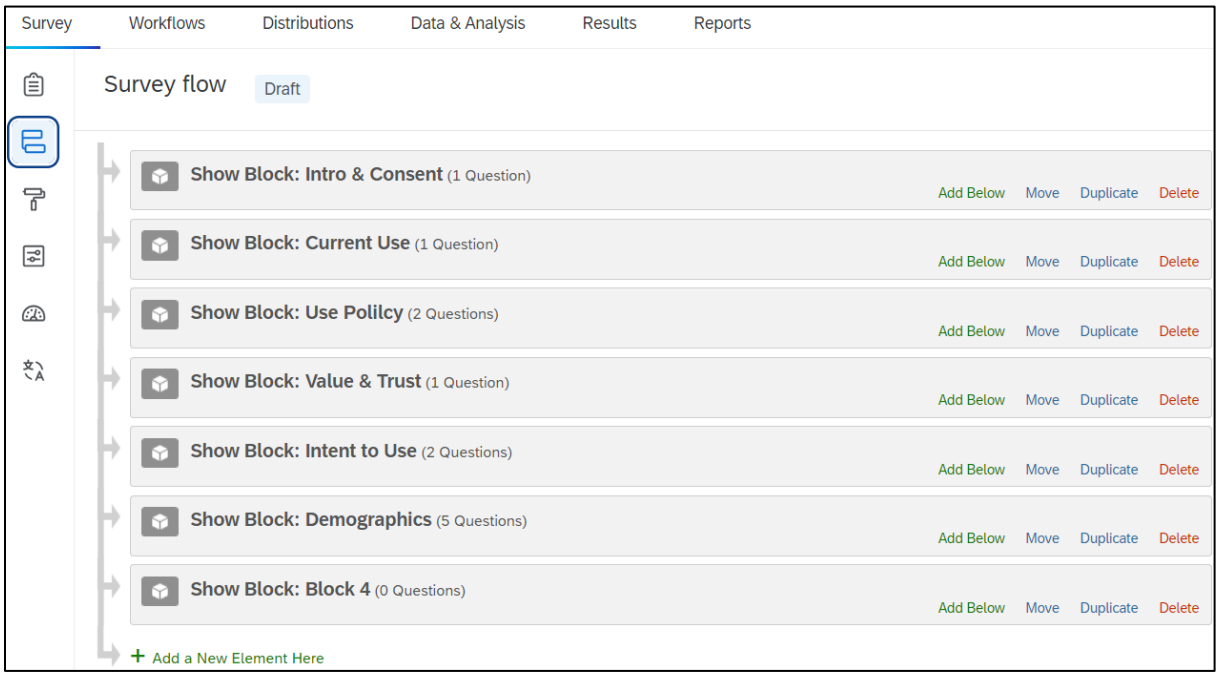
1. From the **Projects** page, select the “ChatGPT Survey” project.

ADD CONSENT PAGE

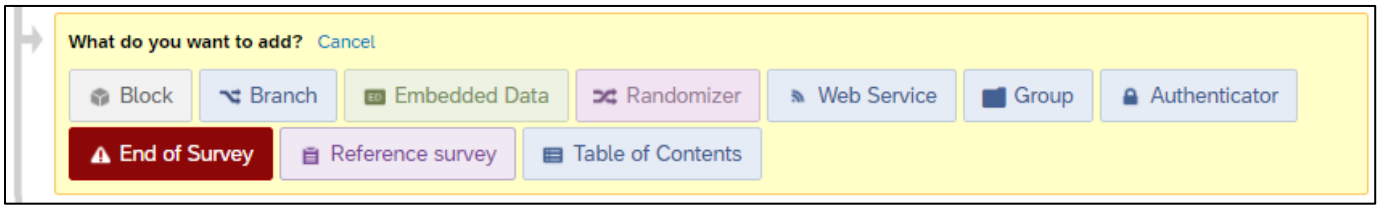
2. Go to the “Intro & Consent” block we have made earlier.
3. Write question text “Welcome! … Your participation is voluntary and all responses will be kept confidential. Do you agree to participate in the survey?” and response choices “Yes” and “No”.
4. Under the **Response requirements** menu in the **Edit question** panel, toggle ‘on’ the **Add requirements** option >> Select **Force response**.

SET SURVEY FLOW

5. Under the **Survey** menu, click **Survey flow** (second icon).



6. To add a ‘thank you and good-bye’ page at the end of the survey, click **Add a New Element Here** >> Select **End of Survey**.



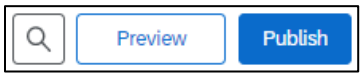
7. Survey participants who answer “No” to the consent question should not move forward and the survey will be terminated. To add this function,
    a. Within the “Intro & Consent” block, click **Add Below** >> Select **Branch** >> Click **Add a condition** >> From the **Select Question…** drop-down menu, select the “Q1” question >> From the **Select Choice…** drop-down menu, select “2 No” >> Select “Is Selected” >> Click **OK**.

    b. Click **Add a New Element Here** under the branch box >> Select **End of Survey**.

    c. Click **Apply** at the bottom right of the page.

RUN PREVIEW

8. Click **Preview** at top of the page >> Check if the survey flow works properly as designed.



End of Demonstration

Practice

1. Explore the **Customize** options for **End of Survey** and create a **Custom** end of survey message.
2. Add an eligibility question (e.g., Are you over 18 years of age?), and modify the survey flow so that only individuals who agree to participate and are older than 18 years can participate in the survey.

End of Practice

Using Tools

Goal: Explore different functions under the Tools menu.

OPEN PROJECT

1. From the **Projects** page, select the “ChatGPT Survey” project.

USE TOOLS FUNCTIONS

2. From the **Tools** menu,

   a. **Auto-number questions** >> Choose the numbering method and prefix >> Click **Apply**.

   b. **Reset recode values** >> Choose an option (when the response choices have been moved up/down) >> Click **OK**.

   c. **Review** >> **Check survey accessibility**.

   d. **Import/Export** >> **Export Survey to Word** >> Choose options >> Click **Export**.

   Collaborate >> Write the email address of an individual who you want to share the survey with >> Click **Add Selected** >> **Save**.

End of Demonstration

Changing Look and Feel

Goal: Explore the functions under the Look and Feel menu.

OPEN PROJECT

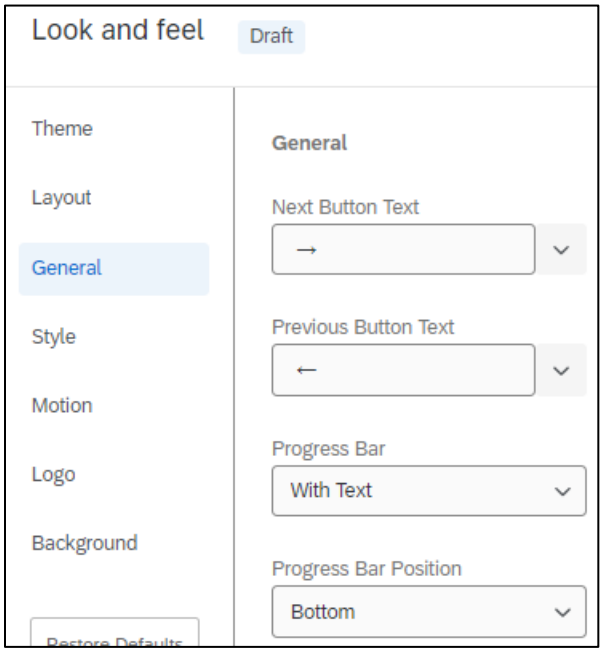
1. From the **Projects** page, select the “ChatGPT Survey” project.

SET THEME, LAYOUT, STYLE, MOTION, LOGO, AND BACKGROUND

2. Under the **Survey** menu, click **Look and feel** (third icon).
3. Confirm or change the current settings of **Theme**, **Layout**, **Style**, **Motion**, **Logo**, and **Background**.
4. Click **Apply**.

ADD PROGRESS BAR

5. Click **General** >> Choose the type of **Progress Bar** and the **Progress Bar Position** >> Click **Apply**.



ADD FOOTER

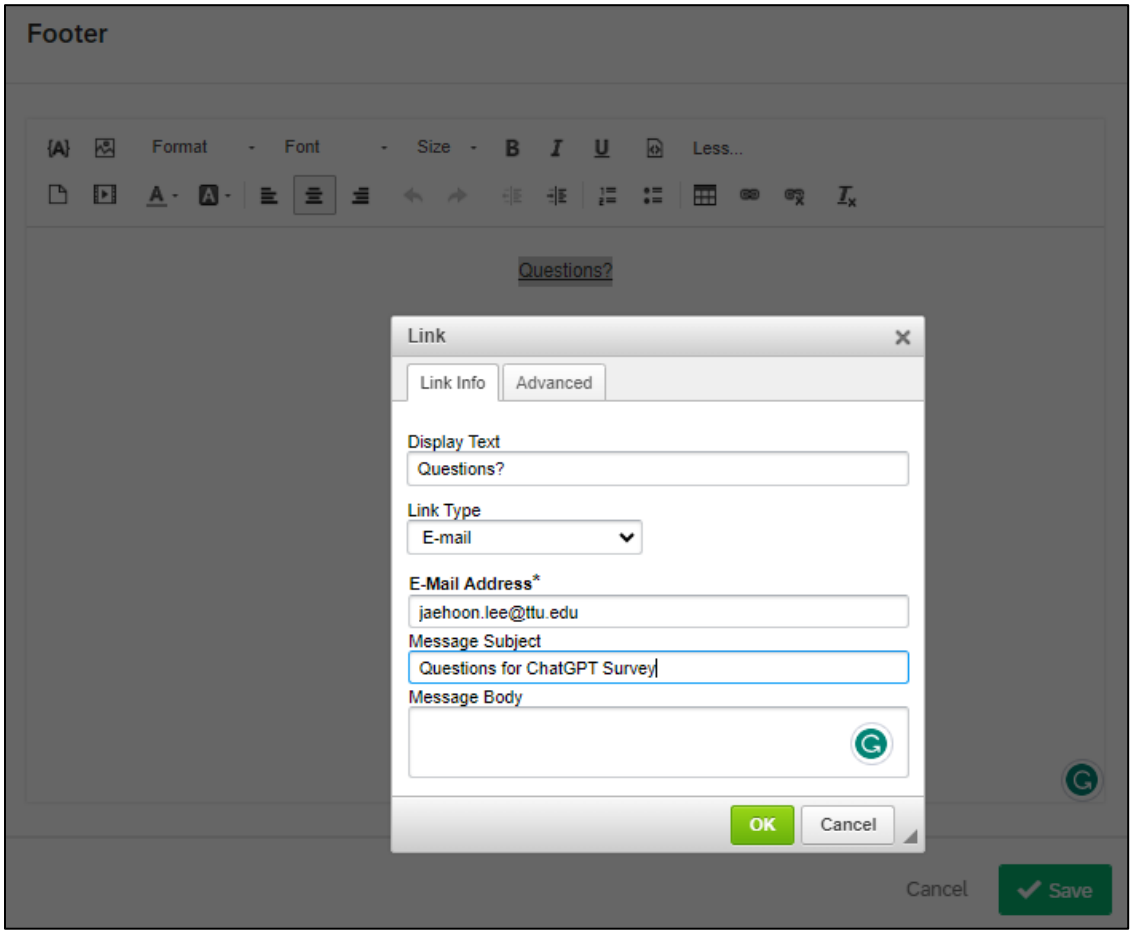
6. Display an email address in the footer so that survey participants can send their questions to the address. To add this function,
    a. Click **General** >> Click the **edit** button below the **Footer** drop-down menu. The **Footer** editor will appear (pop out).

b. Type “Questions?” on the editor >> Center the text >> Drag and select the text >> Click the **Link** button on the editor menu bar >> Select **E-mail** from the **Link Type** drop-down menu >> Type your email address into the E-mail Address box.

c. If desired, supply an email subject and a message draft that survey participants can use.

d. Click **OK**.

e. Click **Save**.



End of Demonstration

Using Survey Options

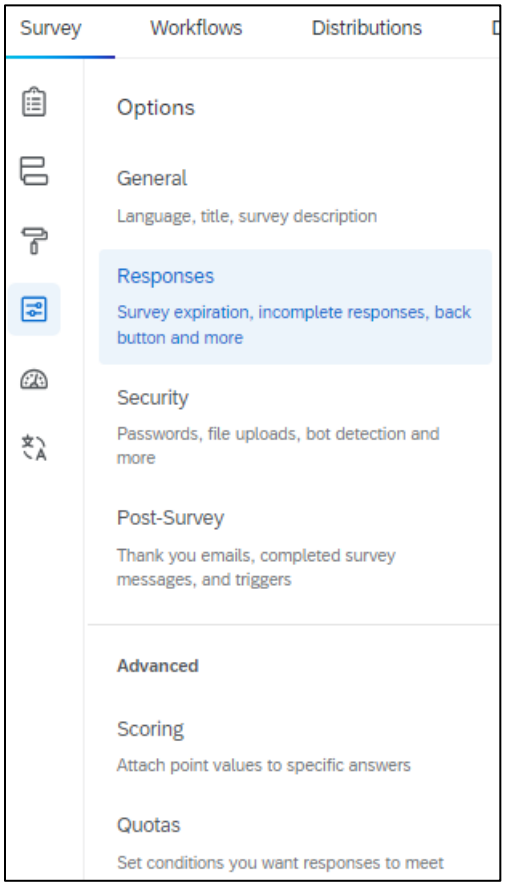
Goal: Explore the functions under the Survey options menu.

OPEN PROJECT

1. From the **Projects** page, select the “ChatGPT Survey” project.

ADD BACK BUTTON

2. Under the **Survey** menu, click **Survey options** >> Click **Responses** >> Toggle ‘on’ the **Back button**.



SET OTHER OPTIONS

3. Confirm or change the current settings of **General**, **Responses**, **Security**, **Post-Survey**, and **Advanced** features.
4. Click **Apply**.

End of Demonstration

Distributing Survey Using Link

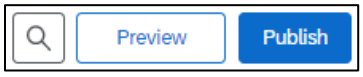
Goal: Send the survey using an anonymous link.

OPEN PROJECT

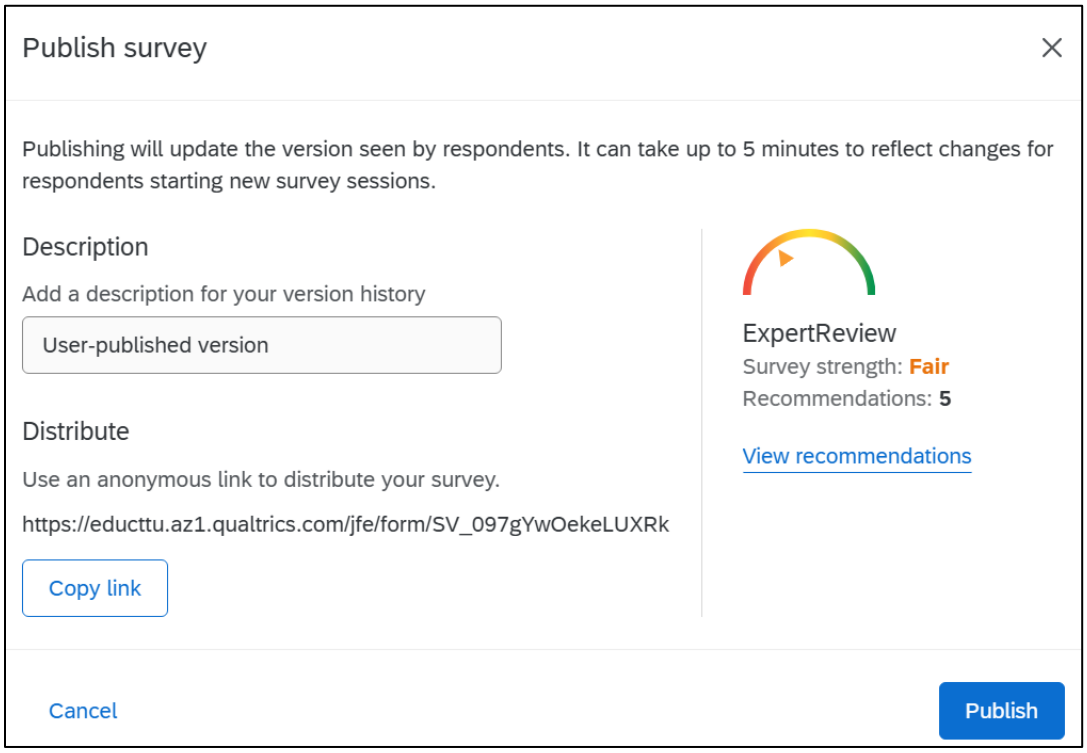
1. From the **Projects** page, select the “ChatGPT Survey” project.

SEND VIA LINK

2. Click **Publish** at the top right corner of the page.

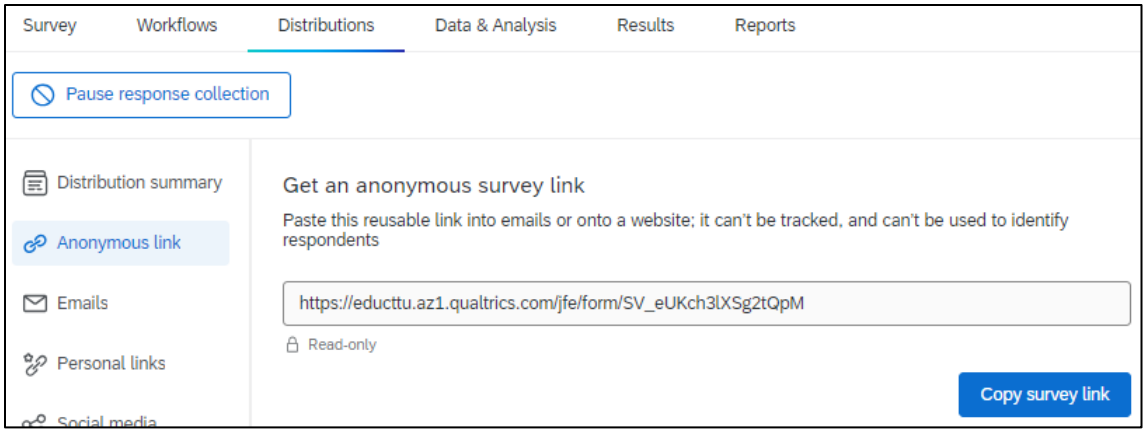


3. The Survey activated page will appear (pop out) >> Click **Copy link** >> Click **Publish** >> Paste the link into emails or onto a website.



4. Alternatively,

   Under the **Distributions** menu, click **Anonymous link** >> Click **Copy survey link** >> Paste the link into emails or onto a website.



Note. When using an anonymous link, particularly with web posting, it is impossible to obtain information about the recipients of the survey or those who responded to the survey. Therefore, no reminders or response rates can be obtained.

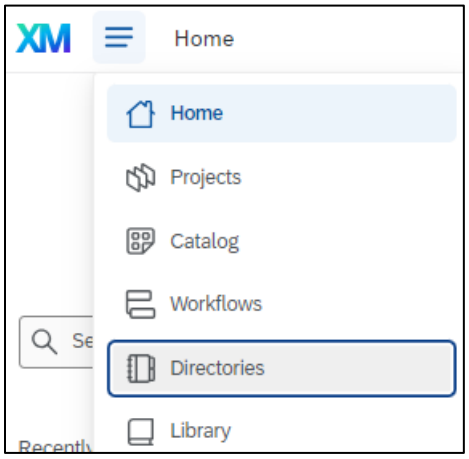
End of Demonstration

Distributing Survey Using Qualtrics Email System

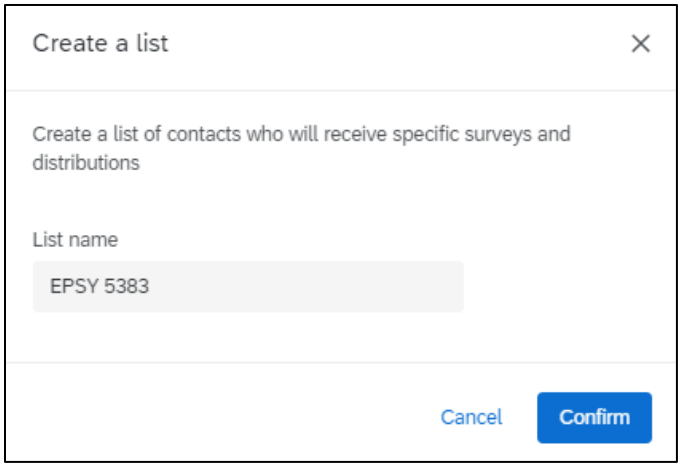
Goal: Send the survey, track recipients, and send reminders using the Qualtrics email system.

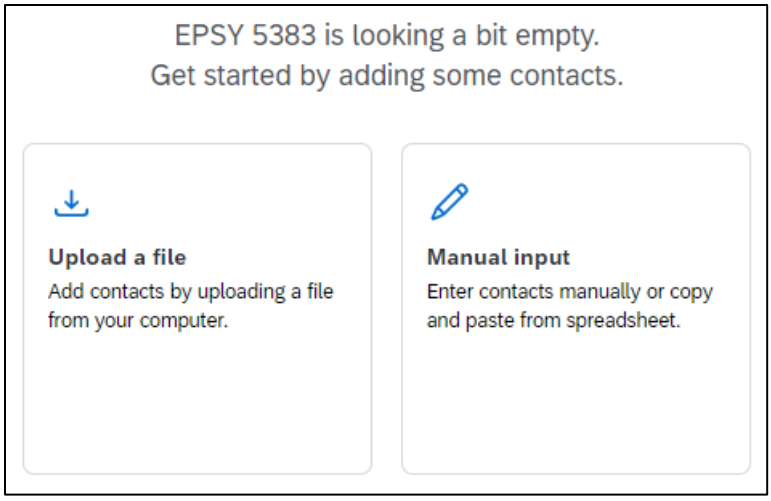
CREATE CONTACT LIST

1. From the main menu, select **Directories**.



2. Click **Create a list** at the top right corner of the page >> Type "EPSY 5383" into the List name box >> Click **Confirm**.

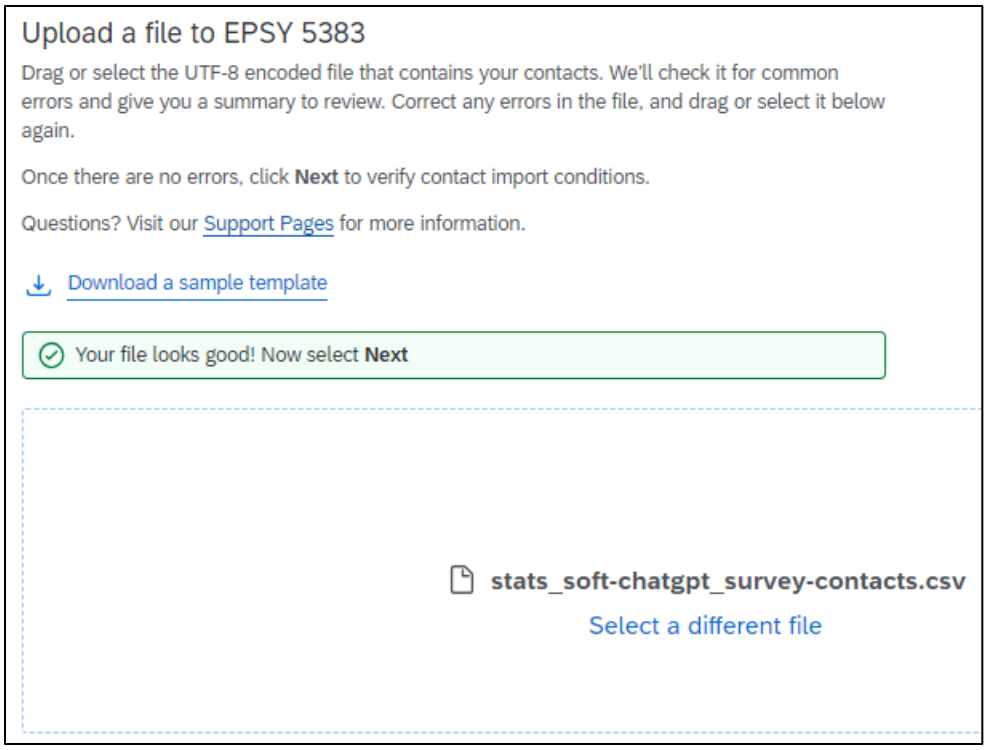




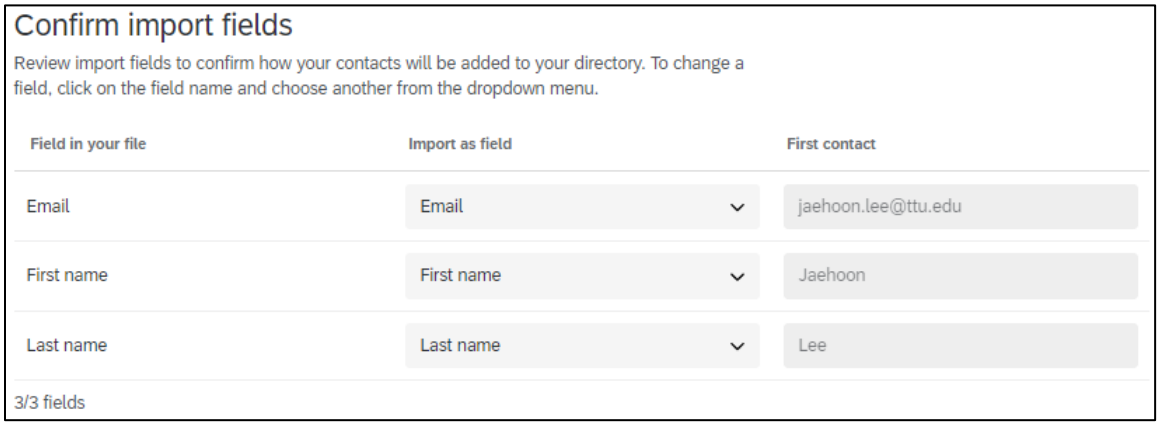
3. Select **Manual input** >> Fill out or copy-and-paste contact data (at least email address) >> Click **Next**.

4. Alternatively,

   Select **Upload a file** >> Select a .csv file containing contact data >> Click **Next** >>

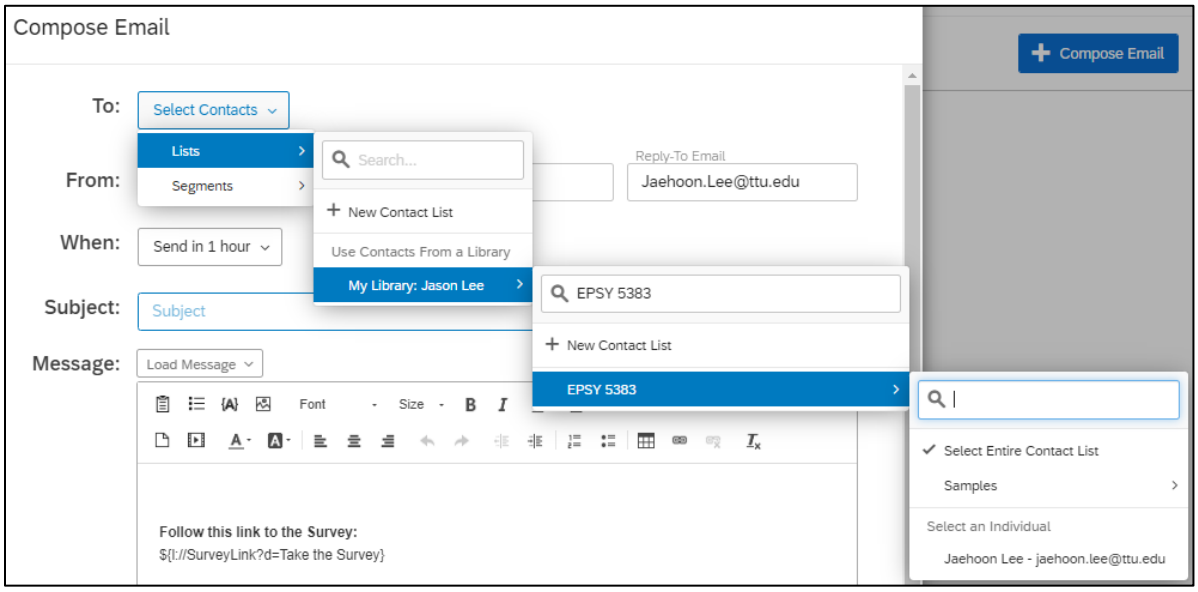


Change/confirm import fields by using the **Import as field** drop-down menus >> Click **Upload the file**.



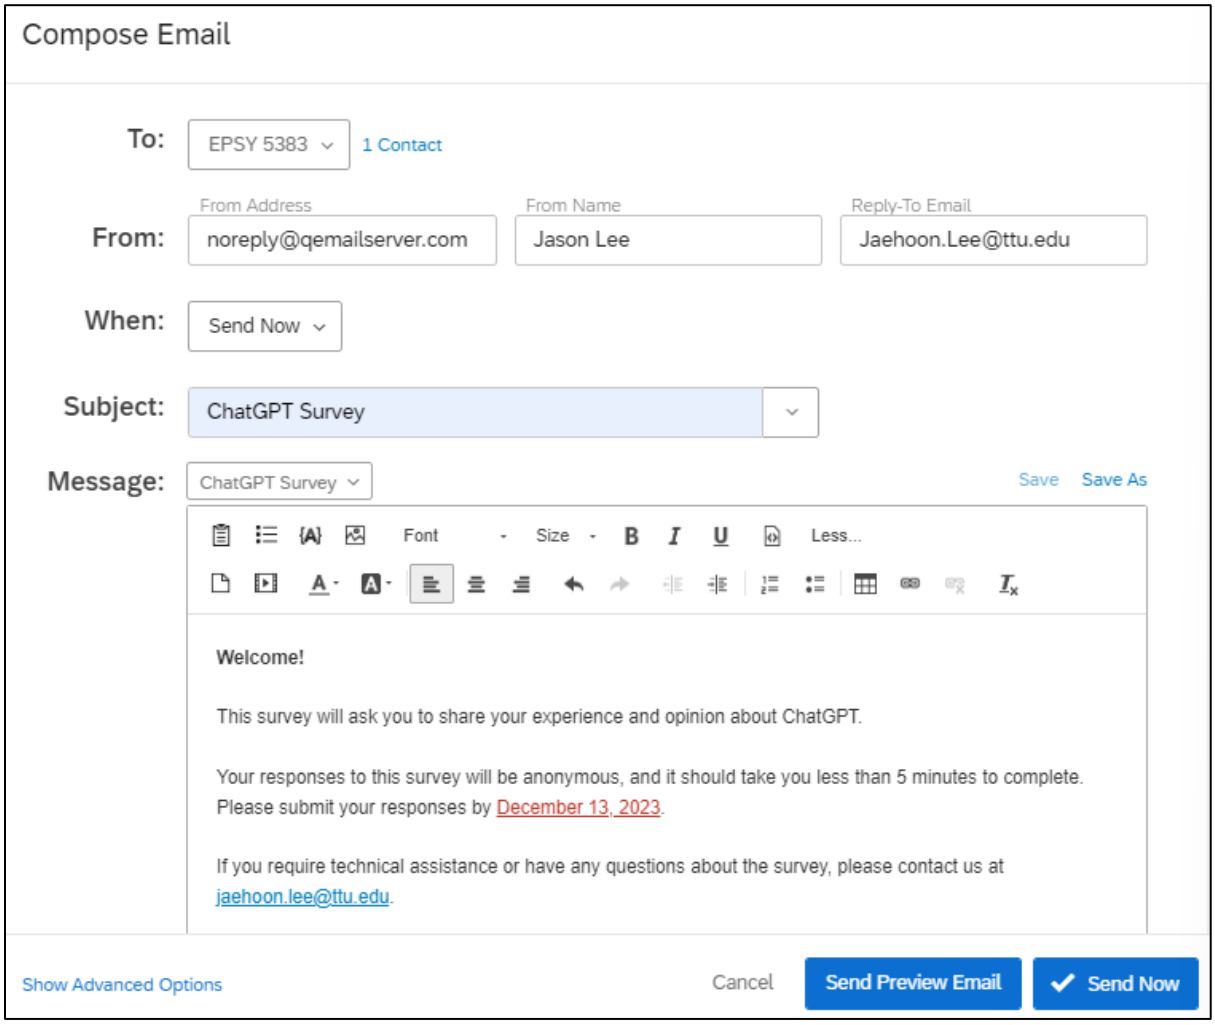
SEND VIA QUALTRICS EMAIL SYSTEM

5. From the **Projects** page, select the "ChatGPT Survey" project.
6. Under the **Distributions** menu, click **Emails** >> Click **Compose Email**. The Compose Email page with the Message editor will appear (pop out).
7. From the **To** drop-down menu, select **Lists** >> **My Library: xxx** >> EPSY 5383 >> **Select Entire Contact List**.



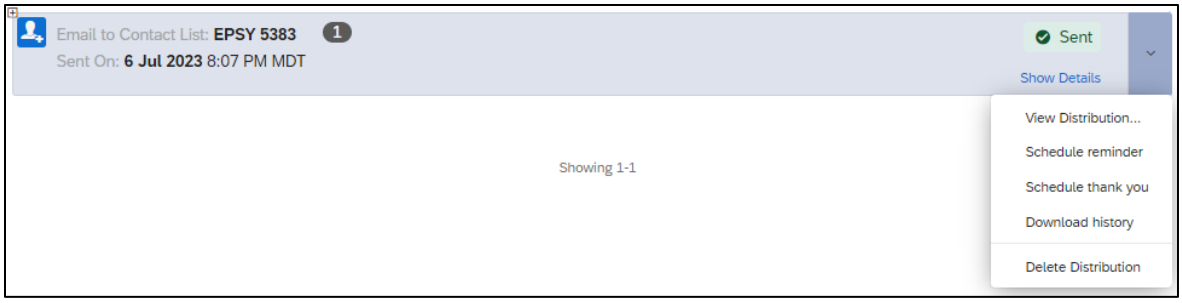
8. Change/confirm sender information in the From fields.
9. From the **When** drop-down menu, choose the time when the survey will be sent.
10. Type a title ("ChatGPT Survey") into the Subject box.
11. Write an invitation letter using the Message editor.
12. Click **Show Advanced Options** at the bottom left of the page >> Select **Individual** from the **Link Type** drop-down menu >> Select an expiration date from the **Link Expiration** drop-down menu.

13. Click **Send Now**.



SEND REMINDER

14. Under the **Distributions** menu, click **Emails**.
15. From the **Email to Contact List** drop-down menu, select **Schedule reminder** >> repeat #7-13.



End of Demonstration

Exporting Survey Responses

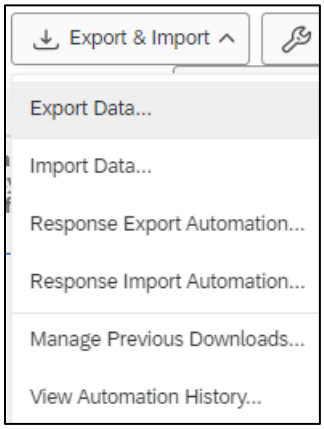
Goal: Export survey data into different file formats.

OPEN PROJECT

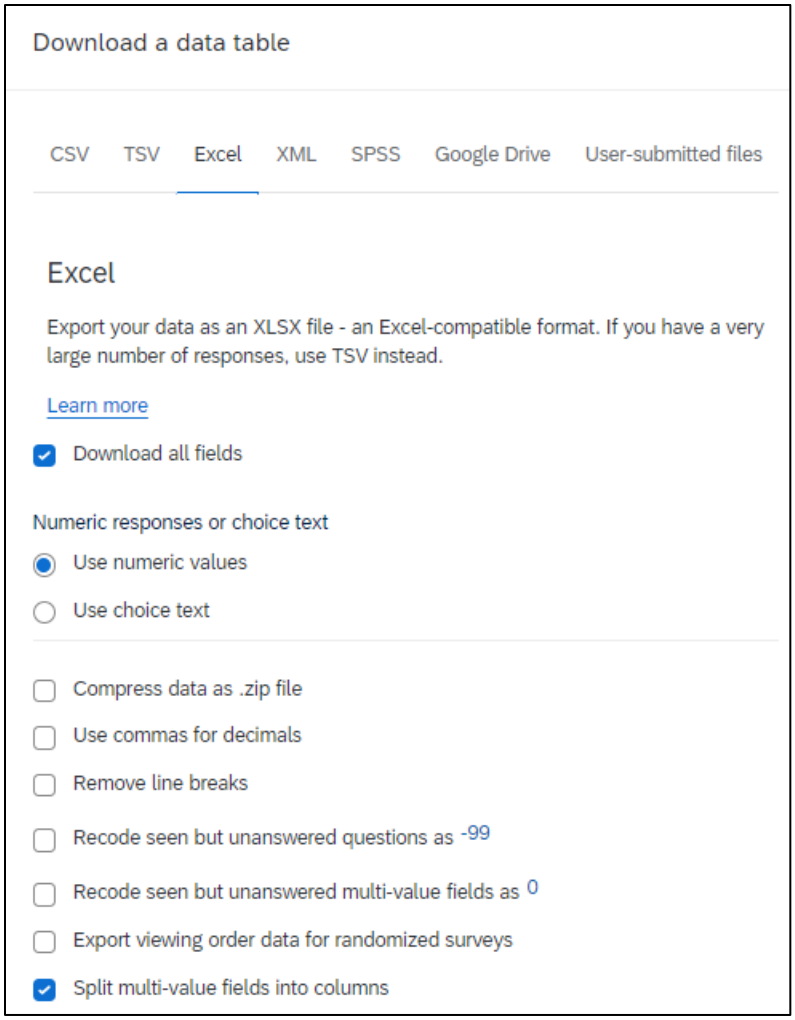
1. From the **Projects** page, select the “ChatGPT Survey” project.

EXPORT SURVEY DATA

2. Under the **Data & Analysis** menu, click **Export & Import** >> Select **Export Data**. The Download a data table page will appear (pop out).



3. Select **Excel** >> Check **Download all fields** >> Select **Use numeric values**.
4. Click **More options** >> Check **Split multi-value fields into columns** >> Click **Download**.



End of Demonstration

Creating Survey Reports

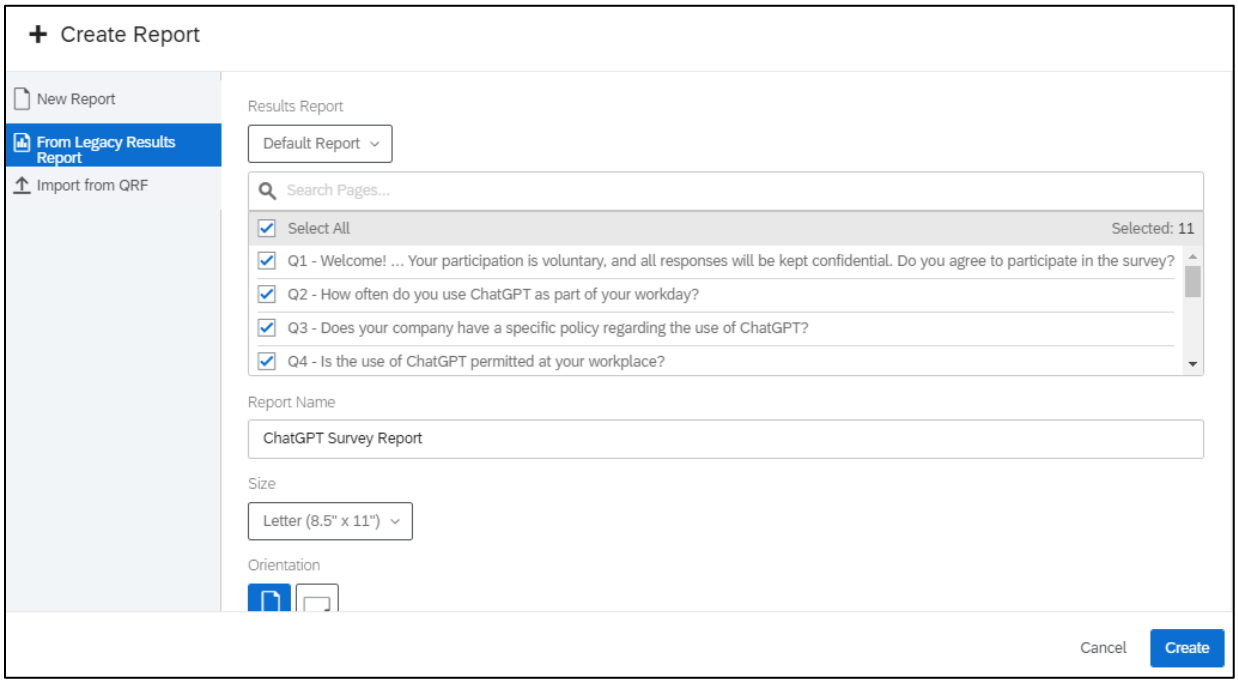
Goal: Create survey reports using the Qualtrics Reports tool.

OPEN PROJECT

1. From the **Projects** page, select the “ChatGPT Survey” project.

CREATE LEGACY RESULTS REPORT

2. Under the **Reports** menu, click **Create Report**. The Create Report page will appear (pop out).
3. Select **From Legacy Results Report** >> From the **Results Report** drop-down menu, select **Default Report** >> Type “ChatGPT Survey Report” into the Report Name box >> Choose the Size, Orientation, and Margins (inches) of the report >> Click **Create**.



End of Demonstration
